

## **MEDIA RELEASE**

### **RE: PCA NAME CHANGE**

**DATE:** 25th August 2020

Since its establishment in 1923, the College has undergone various changes over the years – including campus location, management and the trading name. After a sustained effort of meetings regarding the future of the College, it has been officially decided that the name will be changing again, for the final time.

The new official trading name of the College is now **'Patrick's College Australia'** and will continue to be referred to as **'PCA'** and **'St Pat's'**. The new logo for PCA is featured below.

Patrick's College Australia (PCA) will be the fifth and final name for the college. (Previously known as *St Patrick's Commercial College, St Patrick's Business College, St Patrick's Institute of Education, and Patrick Careers Academy*).

It is the intention of the College Executive that this name will live on for another one hundred years and longer with our centenary year (100th Birthday) fast approaching in 2023. We believe this is a name with strength for posterity.

We also believe this name change will be an accelerator for reintroducing the college and all that it offers the Australian public, not only in Sydney, but eventually across the nation. With our high graduate success rate in Sydney, there's no reason why we couldn't have a campus in every capital city of Australia in the future – bringing "The Patrick's Way" to school-leavers far and wide. This is our hope for the future.

Patrick's College Australia (PCA) hereby renews its promise and commitment to serve Australian school-leavers as Australia's leading vocational business college with a focus on graduate employment success and an ethos of pastoral care.

We hope you will join with us in celebrating our hopes for the future as we approach our 100th anniversary and take on the next 100 years with confidence.

This transition will come into full effect by Semester 1, 2021.

Approved by the Directors of Capital Education Group (T/A Patrick Careers Academy and Patrick's College Australia).
